TIME FOR STRINGS (FISHBURN, KATHY)

-- This book was developed for the orchestra director who teaches beginning, elementary, and early secondary schools. It's most outstanding feature is the early introduction of the eighth note as the basis for counting, which will prepare young musicians for more difficult secondary literature. While it may seem more difficult in the initial presentation, this technique helps students develop their bow technique much more quickly. Written tests to evaluate student progress as well as suggestions for diagnosing and solving problems of tone production and intonation are included. #49575

A TUNE A DAY (PAUL HERFURTH)

While keeping the concept simple - each lesson spells out clear objectives and is reinforced by several new tunes to play. Several portions of the books are compatible with other instrument books. In addition, several of the new books are written to allow use together with another book, for violinists and cellists (for example) learning together. Tests are included to check progress and comprehension.

STRING EXPLORER BOOK 1 & 2

STRING EXPLORER, BOOK 1 & 2 (DABCZYNSKI, MEYER, PHILLIPS) - Enhanced with spectacular full-color photographs, each unit separately addresses new right-hand and left-hand techniques, then combines and reinforces the newly learned skills with a section of creatively selected classics, folk songs and original pieces. Carefully constructed activity pages allow students to explore composition, improvisation, music theory, ear training and world music, and often correlates with subject matter being studied in other classes. With a unique look and fresh approach for today's students, String Explorer also meets and exceeds the US National Standards for Music Arts Education for grades five through eight. Teacher's manuals come complete with piano accompaniments and play along CD. Teachers Resource Kit also available.

MASTERY FOR STRINGS:A Longitudinal Sequence of Instruction for School Orchestra, Studio Lesson and College Methodology (Dick Williams, Laurie Scott)

-- Mastery for Strings presents a unique, efficient methodology for developing high levels of proficiency in string players in both classroom and private studio settings. It is designed to be used alongside the standard method books, complementing the method book by constructing a step-by-step pedagogical program for violin, viola, cello and string bass. A valuable resource, the book provides a methodology for efficient and continuous learning based on the physical aspects of playing a string instrument. Cornerstones of the Mastery for Strings approach are: a curriculum design for large heterogeneous string classes; technical skills organized in small, sequential steps; 'how-to' pages with clear goals; explicit instructions, and recognizable evaluation criteria for each technical skill; a plan for developing problem-solving strategies and self-evaluation skills; music theory (fingerboard geography) taught without reference to the piano keyboard.

Strictly Strings

HIGHLAND/ETLING

A DIVISION OF

By Jacquelyn Dillon, James Kjelland and John O'Reilly.

STRICTLY STRINGS

Your students will be playing music in 3-part harmony in about 4 months. Utilizing a unique letter-note style of notation, your students will develop a strong understanding of pitch and pulse, and the transition from rote to note reading will be smooth. Over 60 musical selections drawn from international folk songs, famous classical melodies, symphonic themes and original compositions combine to help develop all players' abilities equally. Early simplified shifting allows low strings to play the melody and entire scales with the rest of the group.

ALL FOR STRINGS PERFORMANCE SELECTIONS

THE FOLLOWING are elementary string orchestra pieces designed to reinforce the concepts found in the ALL FOR STRINGS Comprehensive String Method. Each of these compositions is correlated with a specific page in the method book. They can be used as a complement to the ALL FOR STRINGS curriculum or as concert pieces for young string orchestras. In addition, each piece contains several warm-up exercises, or Learning Concepts, which isolate for more intense study many of the composition's musical elements.

ARTISTRY IN STRINGS, BOOK I & BOOK II BY FROST & FISCHBACH

#38760, #38761

Artistry in Strings is a revolutionary new string method for classroom or private studio use. It features over 200 songs, theory, and rhythm exercises to help students quickly become artists on their string instruments. Special exercises called Swingerises are featured, dedicated toward a right or left hand concept. These contribute significantly to a student's technical development. A CD accompaniment, featuring real instruments, strengthens student's rhythmic foundation and musicality and introduces them to a myriad of musical styles and sounds.

Suzuki Method began after World War II, when Shinichi Suzuki carried his interest and sympathy for children into his work as a musician and teacher. Encouraged by the ability of children to assimilate their mother tongue, he saw a great opportunity to enrich their lives through music. Noting that children the world over learn to speak their native language with ease, Suzuki applied the basic principles of language acquisition to the learning of music. He called his method the mother-tongue approach, or Talent Education.
